Safety

Dear Scott,

Happy New Year!

Would you like to start the New Year with safety in mind? How about learning how to avoid slip and fall accidents in your workplace? [David Natalizia](#), a renowned expert on prevention of slip and fall accidents, is going to be speaking at our January lunch meeting on Wednesday, January 20, at the Anaheim Park Hotel in Fullerton.

David Natalizia is the founder and Principal of Dynamic Safety. His 20 years of industry experience has given him a background in operations, support, human resources, and safety roles. He has developed and implemented safety programs for theme parks, hotels, restaurants, manufacturing, transportation and retail operations.

David has developed slip and fall prevention programs for major foodservice operators, theme parks, and hotels, has provided courtroom testimony related to slip and fall cases, and is certified in slip resistance measurement (CXL). David's articles have been published in ASSE's "*Compass*" publication, as well as the "*Proceedings*" of the ASSE Annual Conference and Exposition.

The meeting is open to anyone, not just our society members. Please invite your clients, fellow safety engineers and others who may be interested!

Sincerely,

Art Pedroza

Professional of the Year

The purpose of the Safety Professional of the Year (SPY) Award is to pay tribute to the outstanding accomplishments of Society professionals engaged in the broad field of occupational safety and health.

One SPY is selected to represent the Orange County Chapter each year.
